

Showcase of the Leica SP8 DLS LightSheet microscope

It is my great pleasure, to invite you to our Leica SP8 DLS showcase at the

Core Facility for Integrated Microscopy University of Copenhagen
Blegdamsvej 3, 2200 København N

The showcase takes place September 21st and 22nd

We have divided the days into 3 timeslots.

Thursday September 21st 9 am – 12

Thursday September 21st 1 pm – 4 pm

Friday September 22nd 9 am – 12

As we have limited space available, please book you slot by mail to me:

martin.nielsen@leica-microsystems.com

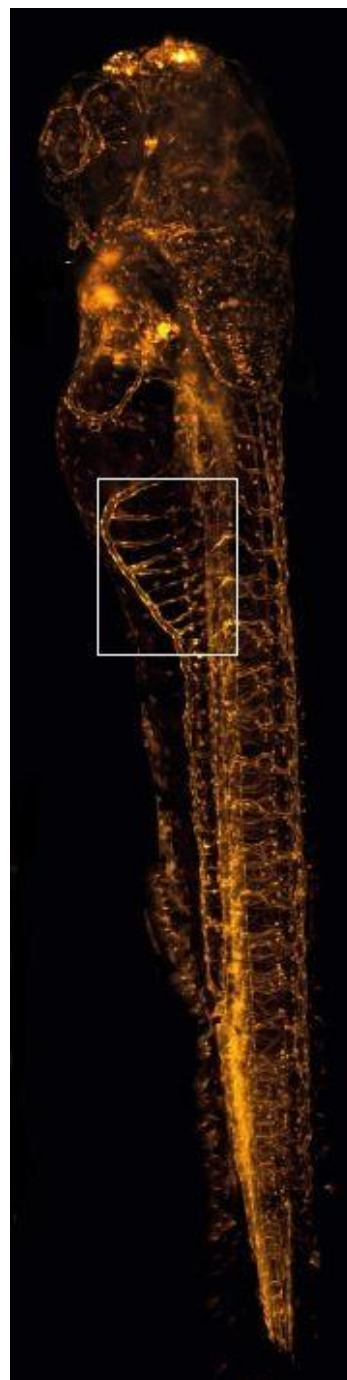

And please indicate what time(s) you would like to book.

Best Regards

Martin

Discover the advantages the Leica TCS SP8 DLS (Digital LightSheet) offers, due to combination of full confocal and single plane illumination in one microscope:

- Easy-to-use and versatile light sheet microscope, due to TwinFlect mirror
- Increase cell viability with single plane illumination
- Observe fast live processes using an sCMOS-camera
- Discover new fields of applications by combining confocal methods with light sheet microscopy
- Illuminate from two sides to overcome darker regions
